PROFESSIONAL PROFILE

Software Engineering student with practical IT support and automation project experience. Proactive leader who takes initiative in team environments, combines technical expertise with strong interpersonal skills. Passionate about leveraging technology to create solutions for underserved communities.

PROFESSIONAL EXPERIENCE

IT Intern | Hope Haven Christian School, Kigali, Rwanda | September 2025 – Present

- Set up, configured, and maintained computers, Chromebooks, and software systems for staff and students.
- Provided technical support by troubleshooting hardware, software, and network issues for 200+ users.
- Created and managed user accounts and email access for staff and students.
- Introduced graphic design tools (Canva) to All in Tech Club, teaching foundational design skills to new students.
- Applied AI tools and automation techniques to improve workflow efficiency and problem resolution.

Automation Systems Developer | Automatic Lighting & School Bell Systems | February 2025

- Designed and implemented automated systems using Arduino microcontrollers to improve school operational efficiency.
- Configured hardware components and control systems to ensure reliable functionality.
- Diagnosed and resolved technical issues related to system performance, connectivity, and timing.
- Project won first place in school innovation fair; recognized as Top Innovator of the Year (2025).

Secretary, All in Tech Club | Hope Haven Christian School | 2024 – Present

- Coordinated club activities and organized meetings to engage 50+ members in coding and design projects.
- Introduced foundational coding and graphic design concepts to students with no prior technical background.
- Strengthened communication and teamwork skills through project coordination and member engagement.

Founder & Funding Coordinator, Charity Club | Village Charity Initiative, Rwanda | 2022 – Present

- Co-founded community initiative providing financial support and mentorship to underprivileged children.
- Coordinated monthly fundraising activities and managed transparent fund allocation.
- Directly improved educational access for 50+ families through consistent community engagement.

EDUCATION

Hope Haven Christian Secondary School | Advanced Level Certificate | 2024 – 2025

- Combination: Mathematics, Computer Science, and Economics (MCE)

Ecole Secondaire de Mukingi | Senior Four Completion | 2023 – 2024

- Combination: Mathematics, Computer Science, and Economics

SKILLS

Technical Skills: IT Support and Troubleshooting • System Setup and Configuration (Windows, Devices) • User Account and Email Management • Automation Systems (Arduino Microcontrollers) • AI Tools (ChatGPT) • Graphic Design (Canva)

Leadership Skills: Problem Solving • Team Collaboration • Project Coordination • Initiative and Ownership • Communication and User Support • Active Listening and Empathy

Languages: English (Fluent) • French (Basic) • Kiswahili (Conversational) • Kinyarwanda (Native)

CERTIFICATIONS & AWARDS

- Microsoft Power Platform Fundamentals Certified (PL-900)
- Top Innovator of the Year (2025) – Hope Haven Christian School
- First Place Award – School Innovation Fair (Automated Lighting and Bell Systems)
- Certificate of Achievement for Academic Excellence (Senior 5 and Senior 6 MCE)
- Bronze Medal – Rwanda-Kenya Economics Olympiad
- Merit Certificates – Wits Mathematics Competition, ALX Tech Championships, BNR School Quiz Challenge
